

PAOLYN HOUSEBOATS

Private Italo Filipino Restaurant

MENU A LA CARTE

NOTES:

- It would be useful to have the **food choice always the day before** (our person will ask you the night before) since we buy most of the ingredients at the fresh market early every day. In fact, we do not stock food since our Italo Filipino Houseboat Restaurant is PRIVATE only for the guests that stay overnight in our Houseboats, in order not to spoil the stay of our guests.
We try to be flexible on your arrival day and we do not ask you the food choice in advance by messages but we strongly suggest to order the lunch of the arrival day in advance by WhatsApp in case your landing time is after 11 am, so you will not wait for your food once you arrive on board!
Some guests refused to order the food on the night before and the day after they complained if you do not order the day before, please do not complain if we will not be able to serve what you would like to eat! In this case also do not order 5 minutes before the time you would like to eat, we cook everything fresh on the moment to get a better quality, so it takes time!
Some people do not have any idea what it means to try to give this kind of service in a remote area that has no electricity, fresh water and services for the waste water.... We found solutions ourselves to make your stay as much enjoyable as possible! But logistically it is quite crazy! So please help us to make you happy 😊
- For our experience sometimes the following ingredients are not available in Coron town, that is why please give always a **second choice** if you choose one of the dishes marked with (#): KING PRAWNS, LOBSTER, CRABS, TORTELLINI, IMPORTED TENDERLOIN, GREEN SALAD, WHOLE LAPU LAPU FISH,
- **Prices include taxes and any extra fee.** In case you would like to tip our employees, we suggest to give a **common tip to the reception** at the end of the stay, so all our 146 employees (with 16 rooms!) will benefit of it and not only the employees that you get in contact with! In fact, for example you will not get in contact with the employees that take care of the trips to move our waste water from the holding tanks of the houseboats to our 14-stages septic tank located in another island (16 people!). But also their job is vital for your stay!! (if you want to use the toilet and have an hot shower!)

NOTES FOR FUNNY GUESTS

- Sometimes guests ask how many people is one order for..... we always answer that it depends how much each person eats! In general, **one order is good for one normal person** and one main dish comes with side vegetables and rice and it can be already a normal meal of a normal person. The order of the whole steamed Lapu Lapu fish is good for two people (as it is also written on the side of it!). Of course it depends how much people eat. So in general each order is for one person, like in any other restaurant except when it is written differently!
- How you can notice **our prices are same or cheaper of most of the restaurants in Coron town** (Two Seasons Bayside Hotel, Poco Deli, Pacifico, Altrove, Get Real; especially after they add taxes and service fees that instead are included in our prices) but sometimes some funny guests ask if they can buy food (or even if we can buy food for them with free service!) and ask to our 5 chefs to cook for them (for free) using for free our spices, plates etc. and sometimes guests ask if they can even cook their selves. Some incredible guests even tried to ask us to buy for them for free a case of beers in town and put the beers in our fridge to save some pesos (we charge 100 php / 1,7 euro for one beer in Coron town most of places ask 120/150 pesos per beer – after taxes and services). The Houseboats have complicated and expensive systems: 24 kw of solar panels, inverters, converters, trivalent freezer and fridge, ice machines with dedicated inverter, 220 v battery chargers, solar controllers, 12000 ah of solar and AGM batteries, 14 kw of inverters 8 backup generators (located in a separate double walls houseboat out of the lagoon and connected to the houseboats with submarine cables, so guests will not be disturbed from the noise of the generators if for some reasons we will need to run them for example in cloud weather) , black water holding tanks, grey water holding tanks, fresh water tanks and a lot more! This is why only our staff is allowed to access to the kitchen (most probably like in every normal restaurant!). The island has not electricity and no fresh water..... we bring every day 5.000 liters of fresh water from a spring from another island 2h far away. Even washing one glass is complicate and expensive.... we do not create pollution, bathrooms (toilets, showers and sinks) and of course also kitchen do not discharge in the sea but in holding tanks located in the hulls of the houseboats. We have 4 specially equipped boats that daily suck all the waste water and bring it to another island (two hours far) where we have built our 14 stages concrete septic tank plus an STP machine on a small hill and where we have a motor pumps system to pump up the waste water. DENR, PCSO, Coast Guard and the municipality competent office have duly inspected them. **If you really want to bring your own food and ask us to cook, we can do it but we will have to charge you the same price of the correspondent amount of the total dishes.**
